

Kwun Tong Maryknoll College

Annual School Report

2024/25

Key Elements of the School Report

- (1) Our School**
- (2) Achievements and Reflection on Major Concerns; Feedback and Follow-up**
- (3) Student Performance**
- (4) Financial Summary**
- (5) Other School Documents**

(1) Our School

A. School Mission

‘Reverence for God and Love for People’ and ‘All-round Excellence’ are our mission. We stress a well-rounded development in academic attainment, social service, civic education, information technology and physical health.

B. School Information

Supervisor	Rev. Fung Che Ho
Principal	Ms. Sin Nga Lam, Caroline (B.A., P.C.Ed., M.A. (Applied Linguistics), M.A. (Sociology))
School Type	Aided boys’ school
School Motto	Kindness, Trust, Modesty, Courtesy, Loyalty, Endurance
Sponsoring Body	Hong Kong Catholic Diocese
Religion	Catholicism
Year of commencement	1971
Area	About 8500 sq. metre
Related associations	Parent-Teacher Association, KTMC Old Students Association, Student Council
Incorporated Management	Established with 93.3% of managers fulfilling the training targets

C. Teaching Staff Information (including School Head) in the 2023/2024 School Year

Number of teaching posts in the approved establishment		53
Total number of teachers in the school		57
Qualifications and professional training (% of teaching staff)		
Teacher’s certificate/ diploma in education		98%
Bachelor degree		98%
Master/Doctorate Degree or above		58%
Special Education Training		Basic: 46.2% Advanced: 13.5% Thematic: 15.4% Completing 30 hours or more in SEN training: 53.8%
Years of experience (% of teaching staff)		
0-4 years	5-9 years	> = 10 years
15.8%	8.8%	75.4%

(2) Achievements and Reflection on Major Concerns; Feedback and Follow-up

- **Major Concern 1: Customize learning experiences: To enhance learning outcomes through diversified and personalized educational practices**

Achievements
In 2024–2025, subject panels and academic units actively implemented a wide range of strategies to diversify and personalize student learning. Academic differentiation was addressed through both enrichment and remedial measures. Gifted students benefited from targeted programmes such as the Physics Olympiad training, HKUST Dual Program, elite Visual Arts training at the Arts and Technology Education Centre, Putonghua recitation classes with external tutors, and participation in local and international competitions in STEM, humanities, and the arts. Support for less able students was provided through enhancement classes, small-group tutorials, and structured post-lesson consolidation activities. For example, several panels conducted additional tutorials before assessments, offered regular feedback on assignments, and tailored teaching resources via Google Classroom. While attendance at optional remedial classes varied, students with consistent participation generally showed improvement. Experiential and cross-curricular learning were prominent. Highlights included interdisciplinary study tours to Germany and the Netherlands, local ecological fieldwork, Chinese Culture Activity Day co-organised by Putonghua, Chinese, Chinese History, and Science panels, and STEAM-infused projects such as F.1 logo design and F.2 zodiac laser engraving. Project-based learning was used to connect knowledge with real-life contexts, such as Biology’s ecological investigations, History’s heritage visits, and Junior Science’s design cycle tasks. Technology integration expanded, with most panels making regular use of online platforms, AI tools, and simulations for pre-lesson preparation, collaborative research, and skill practice. Library-led reading programmes, thematic book displays, and cross-panel literacy initiatives further diversified learning modes. Student leadership was fostered through roles such as student-librarians, peer mentors in gifted programmes, and team leaders in competitions.
Reflection
Personalisation in learning yielded clear academic and engagement gains. High participation was seen in AI-driven research tasks, cross-curricular projects, and external competitions. Differentiated strategies helped both high-achievers and students needing reinforcement. However, attendance in voluntary remedial programmes remained uneven, limiting their impact on some target groups. Teacher readiness in advanced technology integration varied, leading to uneven application of AI tools. Large-scale projects delivered strong learning experiences but required substantial resources, raising sustainability considerations.

Feedback and Follow-up

To build on the progress made, we can:

- Increase participation in remedial and enhancement programmes by incorporating certain remedial sessions into the regular timetable or linking them with compulsory formative tasks to raise attendance. Varied scheduling options should also be offered to accommodate students' commitments;
- Broaden accessibility of enrichment activities through the design of entry-level competitions and workshops for junior forms. Enrichment programmes should be promoted via taster sessions, peer sharing, and parent briefings to encourage wider participation;
- Strengthen consolidation after experiential learning by building structured follow-up into the activity design. This may include reflective journals, presentations, or cross-subject assessment tasks to ensure learning is captured and applied;
- Enhance teacher capacity in AI and technology integration by expanding professional development workshops with hands-on AI and e-learning applications. Regular peer-sharing sessions between panels should also be organised to showcase successful practices;
- Maintain sustainability of cross-curricular projects by prioritising scalable, lower-resource models without compromising quality. This could involve alternating major projects across years or sharing coordination between panels; and
- Leverage student leadership for customised learning by formalising student leader roles in academic and co-curricular programmes. Student leaders can help drive peer learning, mentor participation, and assist in activity organisation.

- **Major concern 2: Live up to the core values of Catholic Education: To strengthen individual and community responsibility and foster active citizenship**

Achievements

In 2024–2025, the school integrated Catholic core values across academic, co-curricular, and pastoral programmes to nurture responsible individuals and active citizens. Values education was embedded in classroom teaching, assemblies, and extra-curricular activities. The Ethics and Religious Education Panel delivered lessons directly linked to Catholic values, guiding students to reflect on moral responsibilities, respect for life, and the common good. The Civic Education Section and Discipline Committee reinforced civic awareness through assemblies and talks on national security, anti-drug education, crime prevention, and community responsibility.

Service learning was promoted through diverse activities. Students contributed to charity initiatives such as the Caritas Bazaar, participated in community cultural projects like the Visual Arts "Better Community, Better Life" walk, and offered service in leadership roles such as student-librarians, sports team captains, music ensemble leaders, and prefects. Peer Mediators, Inclusive Ambassadors, and senior students mentored younger peers in academic, cultural, and religious activities.

National and civic identity were strengthened through heritage site visits, museum trips, and cultural celebrations such as the Chinese Culture Activity Day. The interdisciplinary study tour to Germany and the Netherlands fostered intercultural understanding, heritage preservation awareness, and global citizenship. Career and Life Planning programmes from F.1 to F.6 guided students to consider their personal values, responsibilities to society, and long-term contributions to the community.

Staff also modelled Catholic values by participating in the Catholic School Leadership attachment programme and organising school-wide moral education initiatives. The Student Support Team implemented Individual Education Plans for SEN students, emphasising responsibility, empathy, and cooperation between home and school.

Reflection

Authentic contexts, such as service roles, cultural celebrations, and civic projects, effectively reinforced Catholic values. Strong turnout in signature events reflected the appeal of values-based programming. Intercultural and heritage experiences deepened students' sense of identity and responsibility. However, opportunities for values application were more frequently taken up by established student leaders, and integration of civic themes across all subjects varied in depth. Sustaining enthusiasm for community service throughout the year remained a challenge amidst competing priorities.

Feedback and Follow-up

To build on the progress made, we can:

1. Expand participation in service learning by creating entry-level, low-barrier activities targeted at junior forms. These should provide meaningful opportunities for students to contribute to the community and develop responsibility from an early stage.
2. Increase the frequency and variety of values-focused experiential learning, including local service projects, intercultural exchanges, and heritage visits. All activities should include structured pre-activity preparation and post-activity reflection to consolidate learning.
3. Strengthen cross-panel collaboration to embed Catholic values and civic responsibility more consistently within subject-based curricula, ensuring alignment between academic learning and the school's mission.
4. Develop a progressive leadership pathway for students from junior forms upwards, providing training and linking roles explicitly to Catholic core values to foster long-term commitment to service and citizenship.
5. Provide ongoing recognition and celebration of students' service and citizenship contributions throughout the school year to sustain motivation and highlight role models for the wider student body.
6. Continue professional development for staff on effective integration of values education into lessons, co-curricular activities, and pastoral care, ensuring a coherent approach across the school.

- **Major concern 3: Promote whole-person wellness: To advocate for holistic health and lifelong well-being**

Achievements In 2024–2025, the school promoted physical, mental, and social well-being through a coordinated programme of academic, co-curricular, and pastoral initiatives. The PE Panel expanded sports participation across forms, with school teams competing successfully in inter-school athletics, football, basketball, and swimming events. Physical fitness programmes and sports days were well attended, fostering regular exercise habits and team spirit. Mental health and emotional resilience were addressed through activities such as the “Failure Experience Day,” stress management workshops, and mindfulness sessions organised by the Student Guidance Committee and Student Support Team. Peer Mediators and Inclusive Ambassadors received training to support classmates, promote empathy, and address interpersonal issues. Nutrition and healthy living were promoted through talks by health professionals, thematic library displays on wellness, and integration of healthy lifestyle topics into subjects such as Science and Life Education. Career and life planning programmes included components on balancing work and personal life, resilience, and adaptability. Cultural and recreational activities also contributed to whole-person wellness. The Music, Visual Arts, and Activity Sections offered creative outlets through performances, exhibitions, and art-making workshops, helping students develop aesthetic appreciation and self-expression. Participation in interflow study tours and local cultural activities further broadened students’ horizons and strengthened their social networks.
Reflection A broad spectrum of wellness activities ensured students with varied interests could participate, fostering a culture that values health alongside academics. The integration of wellness topics into curricula strengthened long-term awareness. Peer support networks enhanced the school’s capacity to respond to well-being needs informally. However, the level of participation varied between forms and activity types, with some programmes attracting primarily senior students or those already active in sports and leadership. Feedback from several sections indicated that sustained engagement in wellness activities could be challenged by academic workload and competing commitments. Additionally, while mental health awareness has increased, some students were hesitant to seek help proactively, suggesting a continued need to normalise open discussion of emotional well-being.
Feedback and Follow-up To build on the progress made, we can: 1. Broaden access to wellness activities by introducing more entry-level, recreational sports and creative programmes aimed at junior forms and less active students.

2. Increase the integration of wellness topics into regular lessons across subjects, ensuring reinforcement of physical, mental, and social health messages in multiple learning contexts.
3. Strengthen promotion of mental health support services and peer support networks, encouraging students to seek help proactively without stigma.
4. Develop year-round wellness campaigns with recurring events and challenges to sustain engagement, rather than concentrating activities in specific terms.
5. Provide targeted time management and self-care training to help students balance academic demands with participation in wellness initiatives.
6. Continue professional development for staff in areas such as youth mental health first aid, inclusive coaching, and integrating well-being into pastoral care.

(3) Student Performance

A. Students' Attitude and Behaviour

Engagement	Students generally showed steady interest in their learning, with many contributing actively in class discussions, digital platforms, and cross-curricular activities. Their curiosity and willingness to try new approaches supported the personalized and diversified learning experiences.
Respect	Interactions between students and staff were, on the whole, courteous and considerate. Friendly greetings, adherence to classroom expectations, and support for peers reflected the Catholic values of respect and empathy.
Responsibility	Students took ownership of their academic work and fulfilled many roles in school life — from class duties to leadership positions in clubs, teams, and service activities. These experiences strengthened both personal accountability in learning and community responsibility.
Collaboration	Working with others remained a notable strength. Students engaged constructively in group projects, sports, performances, and service initiatives, demonstrating teamwork and mutual support. Such collaboration enriched cross-curricular learning and fostered shared responsibility.
Self-discipline	Most students balanced academic and co-curricular demands well, showing maturity in managing their time and commitments. This ability to maintain focus and prioritize tasks is closely linked to the lifelong well-being goals.
Positive Attitude	A constructive mindset was evident in many students, who approached challenges with openness and adaptability. This attitude not only supported resilience and wellness but also enhanced their readiness to take on new learning opportunities.
Attendance and Punctuality	Attendance and punctuality remained at a good overall level, enabling students to participate fully in lessons, service opportunities, and wellness programmes connected to all three major concerns.

B. Academic Performance

Public Examination Results: HKDSE 2025

Percentage of students in the school who met the entrance requirements for local Bachelor degree programmes	90.3%
Percentage of students in the school who met the entrance requirements for local sub-degree programmes	99.1%

C. Non-academic Performance

Art and Music				
4C	19	YE MAN HIN	Exhibition of Student Visual Arts Work 2024/25	Gold Award
